Commissioner for Patents

Process claims 1-11 were also analyzed under 35 USC 101. It is recognized that, in order to be statutory, a process claim must be 1) tied to a particular machine or apparatus, or 2) it transforms a particular article into a different state or thing. In re Bilski, 88 USPQ2d 1385 (2008). For the instant invention, the process claims, which are drawn to creating a presentation document, are neither 1) tied to a particular machine or apparatus nor 2) does they transforms a particular article into a different state or thing. As such, the process does not meet the requirements under the Bilski test and are drawn to a patent ineligible process.

/Rachna S Desai/
Primary Examiner, Art Unit 2176
